MANAGER'S MESSAGE

One of our most important tasks is planning for the future. Together, the Board of Directors, Management and dedicated Personnel will take the pieces that are already in place and forge forward, continuing to build upon the excellent foundations that have been laid in years past.

~ Alan Lesley, CECA General Manager

I COMMUNICATE THE WORDS IN THIS ANNUAL REPORT with enthusiasm toward CECA's future. It is a contagious enthusiasm... I sense the same energy from the employees working throughout the entire organization.

CECA is on solid financial ground and we have the pieces in place to build on our past successes.

2019 finds us ahead of our planned schedule in implementing many of the projects we have begun. In July, we were proud to commission a new distribution substation in the Olden area of Eastland County to serve a growing load base as well as vastly improve our reliability to those members residing in that portion of our service territory. Additionally, we have completed numerous system upgrades in advance of our planned scheduling to take full advantage of long term financing at near historically low interest rates.

On top of that – more exciting news – we have just completed the first of two construction phases of our new headquarters facility! The product of almost 5 years of planning and construction, employees began moving into the facility in August. Once finished, the complete campus will encompass a Headquarters building, warehouse and shop facility, equipment yard and a 7-acre community solar project. Equipped with advanced technology, the facility will help our employees monitor and control devices in our service area which will speed the process of locating problems to provide for faster restoration of outages when they occur. Through the aid of security enhancements, installed systems ensure continued compliance with standards to protect member information and safeguard the integrity of critical distribution infrastructure assets.

The Cooperative continues to be a leader in seeking to understand and invest in new technologies beneficial to our membership. Having noticed an increasing interest in residential solar, we have spent considerable time researching options and now are able to offer a turn-key solution which is made up of fully vetted top-of-the-line components. Best of all, the cooperative will install and provide continuing maintenance service for those interested in investing in their own solar facility.

At every turn, there are dedicated CECA employees making a contribution. From those who scout out outages and restore your power to those who develop ideas into practical applications, we are a committed group of professionals, devoted to the members and communities in which we serve. And our members are there at every step. Our service is made better with the benefit of constant contact and feedback from you.

One of our most important tasks is planning for the future. Together, the Board of Directors, Management and dedicated Personnel will take the pieces that are already in place and forge forward, continuing to build upon the excellent foundations that have been laid in years past.

INNOVATION THROUGH METERING

Do you remember when your bill came with a meter reading card, and you walked out to your meter and wrote down the reading and sent it in with your payment? How about the meter readers that walked to your meter and wrote the reading in their big black books? A lot has changed in the last 80 years!

WHEN COMANCHE COUNTY ELECTRIC COOPERATIVE WAS FORMED IN 1938, members not only read their own meters, but calculated their own bill using a billing chart provided by the cooperative. Then they would return a check with their bill based on their own calculations.

In the 1980's meter readers were hired to drive to each individual meter per month to collect the current reading. While this was an improvement for our membership, it was still a timely and costly endeavor.

In the late 1990s CECA implemented Turtle meters, the latest and greatest of a line of smart meters. The Turtle meter could read a meter, then send those readings through the lines to a receiver at the substation. Readings were then sent from the substation directly into a software program.

However, there was about a three day delay in those readings (thus the name "Turtle") and the cooperative was very limited in what information it could receive.

Due to technological advances, and Turtle meters not keeping up with the changing times, in 2013 CECA began the process of changing out all meters to Sensus meters, one of the most advanced metering systems being utilized today. As a result, CECA now has more options to deliver accuracy, reliability and quality service to our members. With two-way communications, CECA can communicate reliably with our entire service territory.

In addition to being a very user friendly and valuable asset to the cooperative, Sensus meter have proven over and over again just how valuable they are to you, our members. A few of the many resources CECA is able to pull from this metering system are:

- Instantaneous reads allow CECA service representatives to better assist the member with usage inquiries.
- Voltage measurement and alarm reporting advises the cooperative of possible malfunctions.
- Power outage and restoration alerts inform the CECA dispatch crews of power outages, sometime even before the member is aware the power is off.
- Remote disconnect and reconnect capability allows CECA to connect and disconnect a meter right from the office. This eliminates the expense of sending a crew to the location to disconnect, then back to reconnect.
- Additional information beneficial to coop as far as providing the customer the best service possible.

The accuracy and reliability of the Sensus metering system is beyond compare, and CECA is proud to be on the cutting edge of this technology. We will continue to update and improve the system to provide you with the best service possible to improve the quality of service we provide to you.

INNOVATION THROUGH PREPAID METERING

Life is busy, with little time for the tedious and troublesome task of sitting down to pay bills. CECA has several options to help relieve that burden. Contact a Member Service Representative today to find out how you can benefit from these time saving features.

AT CECA WE KNOW HOW EASY IT IS to get caught up in the hustle and bustle of everyday living. The job, the kids, the grandkids....who has time to sit down and write checks and mail them out?

With eight different payment choices—bank draft, recurring online payments, e-bill, walk in, phone, budget billing, and mail, plus our newest option, Pay Your Way—CECA makes it easy for members to choose the payment option that is most convenient for them and their family.

Pay Your Way Prepaid Metering

How does Pay Your Way prepay work?

New and current residential members may be eligible to qualify for the CECA Pay Your Way prepay program.

New members pay a \$120 initial payment to establish a Pay Your Way prepay account. This amount consists of a \$20 CECA membership fee, a one-time \$50 connect fee and a \$50 credit applied to the Pay Your Way prepay account.

Existing members may have the option of converting to a prepay account. Deposits on an existing account will be applied toward any outstanding balance, with the remaining amount applied to the Pay Your Way prepay account as a credit. Existing members with billed or unbilled account balances may either pay the existing balance or may qualify for the cooperative's debt management system.

Existing CECA members must begin the Pay Your Way prepay program with a minimum of \$20 credit on the account. Pay Your Way members are not eligible for budget billing.

Billing

Once a Pay Your Way prepay account is established and a credit balance is realized, the member's home energy usage and the availability charge is recorded and charged daily to the account. The credit balance is reduced daily by the amount charged until either the balance is exhausted or additional payments are made to the account.

How do I manage my Pay Your Way prepay balance?

You may choose to receive periodic courtesy notifications of account balances via text messaging and/or email.

For more information, please call our office directly at 800-915-2533. Someone will be available to answer your questions 24/7.

INNOVATION THROUGH SOLAR

Going Solar Just Became Easy

Thinking of going solar but don't want the high cost and complications associated with roof-top solar panels? Or maybe there simply isn't enough light where you live. With CECA Energy Solutions you now have an easy way to capture your share of the sun!

CECA NOW HAS TWO EASY WAYS TO GO SOLAR through our CECA Energy Solutions: Community Solar and Backyard Solar.

Community Solar

How it Works

Members will be able to purchase 100 kWh blocks of energy from the cooperative. These blocks will allow you to lock in the value of that solar kWh at the time of purchase. That price is then good for up to 25 years, as long as the member continues to purchase the blocks from CECA each month. This allows the member to avoid any increase in kWh for that portion of their bill. Members will be allowed to purchase up to ½ their average monthly usage in Solar Blocks.

Cooperative Solar Advantages:

- It's affordable
- There are no long-term contracts
- It's more cost-effective than owning or leasing a rooftop solar system
- There's nothing to finance
- There are no shade limitations
- You'll have no holes in your roof
- Concerns about roof age and condition are eliminated
- No maintenance issues
- No need to be concerned about roof orientation to the sun
- Neighborhood covenants do not affect access
- Renters can participate

Availability

Members will be able to purchase blocks of energy to supplement energy purchased through the cooperative. These blocks will allow members to lock in a price for up to 25 years, avoiding increases in energy pricing.

Sign-Ups

Sign-ups are on a first-come, first served basis. Call us at 800-915-2533 to apply. We are not able to take online requests at this time. If blocks are sold out, a waiting list is available.

Billing

Members will be billed \$18 for each block of solar electricity. The kilowatt-hours produced by your block in each calendar month will offset the same number of kilowatt-hours on your bill. If your block produces more kilowatt-hours than you use during your billing period, you will receive a credit for the excess. You will be informed of any price change at least 30 days in advance.

Length of Commitment

There are no contracts involved, members may discontinue at any time by notifying CECA. However, when you choose to discontinue, CECA cannot guarantee there will be availability if you decide to rejoin.

Backyard Solar

How it Works

CECA Energy Solutions now offers backyard solar arrays for residences. CECA employees and contractors will be with you every step of the way through planning, purchasing, installation, and maintenance of the system. All parts are warranted to protect our members from inferior products. Members are able take advantage of co-op buying power and expertise to ensure they are receiving a quality product for a fair price.

Current Offering

CECA Energy Solutions has three kit sizes to fit any members usage profile. 4, 8, & 12 KW ground mount systems can be placed in close proximity to your meter. This allows CECA to ensure the angle and shading are perfect for peak performance of the system and members do not have to worry about being oversold or having a system under produce.

Solar Kits/Custom Arrays

CECA Energy Solutions has worked hard to develop solar options for our members that are made up of only top of the line components. In doing this we have maintained very competitive pricing that we believe provides a superior product for a great price.

Maintenance Plan

CECA Energy Solutions will offer a maintenance plan that covers all warranty issues, labor costs for replacement parts, and monitoring to ensure all panels and inverters are running at peak production. A charge of \$12/month will be added to your electric bill.

Protected by People You Trust

Members who join the CECA Solar Maintenance Plan receive the security of knowing CECA will be around throughout the long lifetime of a solar array to help with any warranty or maintenance issues as well as system monitoring to know when something is not performing at peak capabilities.

INNOVATION THROUGH INFRASTRUCTURE

When a small group of rural citizens met in 1938 to discuss the lack of rural infrastructure in Comanche County, little did they know that 80 years later it would grow into a seven-county electric cooperative serving almost 17,000 meters on 5,000 miles of electric lines! Except for the first few years, Comanche Electric Cooperative (CECA) has occupied and operated out of the same headquarters location. “We finally just got to the point where there’s not any more floorspace,” said Alan Lesley, General Manager.

Why build a new building?

Built in 1955, with half the members and miles of line the cooperative currently serves, and half as many employees, the cooperative has now outgrown its existing building and space available. The CECA office is filled to capacity, with employees sharing work stations and offices. To ensure that employees meet member needs at exceptionally high levels, adequate work areas must be available for the employees to meet the needs of the members.

What options were available?

To remedy this situation, in 2014 the board and staff of CECA began an extensive study of options. Three opportunities were studied:

- 1) Renovation of the existing location was most desired but quickly eliminated. With little room available for expansion and a 62-year-old building, this option was not economically feasible to meet the organization's current and expected future needs.
- 2) Start with a blank slate and build from the ground up; or,
- 3) Renovate an existing building.

In the search to determine if it was feasible to purchase raw land for a new HQ site, the Sidran Manufacturing Plant was considered and ultimately determined to be the best overall fit for CECA. The 42,000 square foot building provided adequate space for offices, with substantial room for growth. The 15-acre property also afforded enough acreage for a shop, equipment yard, warehouse, and additional room for a solar farm.

Who made the decision to renovate?

In January of 2015 the CECA Board of Directors voted to purchase and renovate the old Sidran Manufacturing Plant and the 15 acres it sits on. With a large infrastructure to build from and room for growth, this option proved not only to be the most practical option for the cooperative, but also the best use of available resources.

In May of 2016 the CECA Board of Directors reviewed candidates and selected Wal-drop Construction of Brownwood as the General Contractor for the project. From there, engineering and design work for the CECA new headquarters facility was started and finally, in January of 2018, construction began.

Will rates be raised to pay for the new facility?

To CECA's financial statements, this project isn't treated any differently than that of a large power line construction project. Keeping the almost 5,000 miles of electric lines in

good working condition is a constant work in progress, so additions and modifications to the utility plant are a necessity and budgeted every year. This project has been well planned and all costs have been accounted for within the budget.

Of course, over time costs do increase and rates for CECA members must be adjusted to recover those costs. However, this specific project will not impact the rates CECA members pay any more than other projects of this scale that are built within the CECA workplan scope.

The Result:

Today we are pleased to be occupying our new space at 349 Industrial Blvd, Comanche, Texas. A drive-thru payment window and night deposit area have been added for member service convenience. Additional parking areas make the office more accessible, with easier access than the previous small parking lot.

Energy efficiency measures have been taken, a much-needed improvement over the previous 60-year-old building. These measures insure the new building is well equipped to last into the future, only leaving a small footprint on the environment. Landscaping has been designed to accommodate for water runoff and to eliminate waste of this precious resource.

Looking to the Future:

Plans are currently being made to install a community solar farm at the new location. In addition to serving as an added generating facility, the array will also serve as a teaching tool to help our members and the communities we serve to better understand the technology, costs, and timeframe for which they can expect to recover their investment if they decide to install a system at their home or business.

In addition, the new facility is located on Industrial Boulevard, an area already zoned for industry with better entrance and exit routes. CECA traffic will now be directed away from the more residential area of Wrights Avenue.

We invite you to stop by for a visit. Our office hours remain 7:30 AM to 4:30 PM and the phone number will remain the same at 1-800-915-2533. We look forward to your visit!

If election of Directors should not be held upon the day designated or determined for annual meeting, or before adjournment thereof, then the

Board of Directors shall cause such election to be held at a special meeting of the Members within sixty (60) days thereafter. Failure to hold an annual meeting at the designated time or any irregularity in the holding thereof shall not work a forfeiture or dissolution of the Cooperative and shall not void matters taken up and disposed of at such meeting; however, such matters are voidable upon a reasonable showing of resultant harm to any Member.

At the Annual Member Meeting: 1) the President shall provide a written and/or oral report regarding the activities of the Cooperative; and 2) the Treasurer shall provide a written and/or oral report regarding the financial condition of the Cooperative.

Agenda, Attendance, and Action at Member Meetings. Except as otherwise provided in these Bylaws, before or at an Annual, Regular, or Special Member Meeting ("Member Meeting"), the Board:

- 1) shall determine the agenda, program, or order of business for the Member Meeting;
- 2) may limit attendance at the Member Meeting to Members; and
- 3) may exercise power reasonably necessary for efficiently and effectively conducting the Member Meeting.

Except as otherwise provided by the Board before or at a Member Meeting, Members attending the Member Meeting may consider, vote, or act only upon a matter described in the notice.

Section 2.2 SPECIAL MEETINGS.

Special meetings of the Members may be called by the President, by the Board of Directors, or by a majority thereof, by a petition signed by not less than one-tenth (1/10) of all Members or such other Officers or persons as may be provided in the Articles of Incorporation or Bylaws, and it shall thereupon be the duty of the Secretary to cause notice of such meeting to be given as hereinafter provided. Special meetings of the Members may be held at any place within the territorial area served by the Cooperative, as shall be specified in the notice of the special meeting.

Anything herein to the contrary notwithstanding, should circumstances transpire so that an insufficient number of Board Members remain to call a special meeting, then and in that event a special meeting can be called by either the attorney for the Cooperative or by the Chief Financial Officer of the Cooperative, with the same notice provisions as those provided for any special meeting.

Section 2.3 NOTICE OF MEMBERS' MEETING.

than thirty (30) days before the date of the meeting, either personally or by mail, by or at the direction of the Secretary, or by the persons calling the meeting, to each Member. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail, addressed to the Member at his, her, or its address as same appears on the records of the Cooperative, with postage thereon prepaid. The failure of any Member to receive notice of an annual or special meeting of the Members shall not invalidate any action which may be taken by the Members at such meeting.

Section 2.4 QUORUM.

At least one hundred fifty (150) of the Members present in person shall constitute a quorum for the transaction of business at all annual meetings. If less than a quorum is present at any meeting, a majority of those present may adjourn the meeting from time to time without further notice.

At all meetings of the Members at which a quorum is present, all questions shall be decided by a vote of a majority of the Members voting thereon in person, except as otherwise provided by law, the Articles of Incorporation of the Cooperative, or these Bylaws. In case of a joint membership, either the husband or wife may vote, but only one may vote.

- 1) No person or entity shall have the right to vote at any meeting unless such person or entity is then a Member and is paying at least a minimum bill.
- 2) Ballots may be received from Members voting in person or by mail if authorized by the Board of Directors.
- 3) At the annual meeting of the membership, the President shall appoint three (3) persons to serve as election judges, who shall be competent and trustworthy Members of this Cooperative, but not an Officer or Director thereof, who shall be charged with the duty of conducting the election of Directors or other matters being voted on and certifying the results thereof, and who shall be responsible for the conduct of the election and the preservation of the ballots.

The election judges so appointed shall have the authority to appoint such persons as they may deem necessary for the purpose of

counting the ballots.

All ballots shall be placed and stored in a substantial metal box, securely locked, and shall remain in the custody of said election judges until said ballot box shall be ordered to be emptied by the Board of Directors. Should no contest of the election and no question as to its validity be raised within thirty (30) days from the date of the election, then the election judges shall turn said ballot box over to the Board of Directors and the Board of Directors shall cause said ballot box to be emptied and its contents destroyed.

At a Member Meeting, the individual presiding over the member vote may require the members to vote by voice. If the individual presiding over the Member vote determines, in good faith, that a voice vote is not sufficient to accurately determine the vote results, then the Members shall vote by written ballot, or by any other reasonable manner determined by the individual presiding over the Member vote. Members may not cumulate votes.

Section 2.6 NO PROXIES.

Members shall vote in person or by mail-in ballot if authorized by the Board of Directors at the Annual Meeting. No Proxy voting shall be allowed.

Every Director and Officer of the Cooperative who was wholly successful on the merits or otherwise, shall be indemnified by the Cooperative against all judgments, penalties, fines, liabilities, amounts paid in settlement and reasonable expenses, including counsel fees actually incurred by or imposed upon him or her in connection with any proceeding to which he or she was, is or is threatened to be made a party, or in which he or she may become involved, by reason, in whole or in part, of being or having been a Director or Officer of the Cooperative, whether or not he or she is a Director or Officer, at the time such expenses are incurred, to the maximum extent consistent with the provisions of Article 2.22A of the Texas Non-Profit Corporation Act; provided that in the event of a settlement the indemnification herein shall apply only when the Board of Directors approves such settlement and reimbursement as being in the best interest of the Cooperative. The foregoing right of indemnification shall be in addition to and not exclusive of all other rights of which such Director or Officer may be entitled.

Section 5.14 POWER TO PURCHASE INSURANCE.

The Cooperative shall have the power to purchase and maintain insurance on behalf of any person who is or was a Director, Officer, employee or agent of the Cooperative, or is or was serving at the request of the Cooperative as a Director, Officer, employee or agent of any corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him or her and incurred by him or her in any such capacity, or arising out of his or her status as such, whether or not the Cooperative would have the power to indemnify him or her against such liability under the provisions of this Article.

Section 5.15 CONTINUING OFFER, RELIANCE.

The provisions of this Article are for the benefit of, and may be enforced by, each Director and Officer of the Cooperative as a contract for valuable consideration and constitute a continuing offer to all present and future Directors and Officers of the Cooperative. The Cooperative, by the adoption of this Article agrees that each present and future Director and Officer of the Cooperative has relied upon and will continue to rely upon

the provisions of this Article in accepting, serving or continuing to serve as a Director or Officer.

Section 5.16 EFFECT OF AMENDMENT.

No amendment, modification or repeal of this Article or any provision hereof shall in any manner terminate, reduce or impair the right of any past, present or future Director or Officer of the Cooperative to be indemnified by the Cooperative, nor the obligation of the Cooperative to indemnify any such Director or Officer, under and in accordance with the provisions of the Article as in effect immediately prior to such amendment, modification or repeal with respect to claims arising from or relating to matters occurring, in whole or in part, prior to such amendment, modification or repeal, regardless of when such claims may arise or be asserted.

ARTICLE 6 CONTRACTS, CHECKS AND DEPOSITS

Section 6.1 CONTRACTS.

Except as otherwise provided in these Bylaws, the Board of Directors may authorize any Officer or Officers, agent or agents to enter into any contract or execute and deliver any instrument in the name and on behalf of the Cooperative, and such authority may be general or confined to specific instances.

Section 6.2 CHECKS, DRAFTS, ETC.

All checks, drafts or other orders for the payment of money, and all notes, bonds or other evidences of indebtedness issued in the name of the Cooperative shall be signed by such Officer or Officers of the Cooperative and in such manner as shall from time to time be determined by resolution of the Board of Directors.

Section 6.3 DEPOSITS.

All funds of the Cooperative shall be deposited from time to time to the credit of the Cooperative in such bank or banks as the Board of Directors may select.

ARTICLE 8 PATRONAGE CAPITAL

Section 8.1 INTEREST OR DIVIDENDS ON CAPITAL PROHIBITED.

The Cooperative shall at all times be operated on a cooperative, non-profit basis for the mutual benefit of its patrons. No interest or dividends shall be paid or payable by the Cooperative on any capital furnished by its

patrons.

Section 8.2 PATRONAGE CAPITAL IN CONNECTION WITH FURNISHING ELECTRIC ENERGY.

In the furnishing of electric energy the Cooperative's operations shall be so conducted that all patrons, Members and non-Members alike, will through their patronage furnish capital for the Cooperative. In order to induce patronage and to assure that the Cooperative will operate on a non-profit basis the Cooperative is obligated to account on a patronage basis to all its patrons, Members and non-Members alike, for all amounts received and receivable from the furnishing of electric energy in excess of operating costs and expenses properly chargeable against the furnishing of electric energy. All such amounts in excess of operating costs and expenses, at the moment of receipt by the Cooperative, are received with the understanding that they are furnished by the patrons, Members and non-Members alike, as capital.

The amounts of such patron's capital credits are to be determined on an annual basis by dividing the amount transferred to the patronage Capital Account for each year by the total electric bills of those who were patrons of the Cooperative in that year and applying the resulting percentage factor to the electric bill of each such patron.

The Cooperative is obligated to pay, by credits to a capital account for each patron, all such amounts in excess of operating costs and expenses. The books and records of the Cooperative shall be set up and kept in such manner that at the end of each fiscal year the amount of capital, if any, so furnished by each patron is clearly reflected and credited in an appropriate record to the capital account of each patron, and the Cooperative shall within a reasonable time after the close of a fiscal year notify each patron of the amount of capital so credited to his, her, or its account. All such amounts credited to the capital account of any patron shall have the same status as though paid to the patron in cash pursuant to a legal obligation to do so and the patron had then furnished the Cooperative corresponding amounts of capital.

Consistent with this Bylaw, the allocation of Capital Credits is in the discretion of the Board and the Board must determine the manner, method, and timing of allocating Capital Credits. The Cooperative may use or invest unretired Capital Credits as determined by the Board.

In the event of dissolution or liquidation of the Cooperative, after all outstanding indebtedness of the Cooperative shall have been paid, outstanding capital credits shall be retired, without priority, on a pro rata basis before any payments are made on account of property rights of Members. If, at any time prior to dissolution or liquidation, the Board of Directors shall determine that the financial condition of the Cooperative will not be impaired thereby, the capital then credited to patrons' accounts

may be retired in full or in part. Any such retirement of capital shall be made in a manner as specified by the Board of Directors for any respective year, adopted by an affirmative vote of two-thirds (2/3) of the membership of the Board of Directors and prescribing a policy for payment of capital credit on a basis consistent with the legal requirements for the payment of such capital credit. IN NO EVENT, HOWEVER, may any such capital be retired unless after the proposed retirement, the capital of the Cooperative shall be sufficient to meet the requirement of lending institutions and agencies.

Capital credited to the account of each patron shall be assignable only on the books of the Cooperative pursuant to written instruction from the assignor and only to successors in interest or successors in occupancy in all or a part of such patron's premises served by the Cooperative unless the Board of Directors, acting under policies of general application shall determine otherwise. In the event that a non-Member patron shall elect to become a Member of the Cooperative, the capital credited to the account of such non-Member patron may be applied by the Cooperative toward the payment of a membership fee on behalf of such non-Member patron.

Notwithstanding any other provision of these Bylaws, the Board of Directors, at its discretion, shall have the power at any time upon the death of any natural person who is a patron, if the legal representatives of his or her estate shall request in writing that the capital credited to any such deceased patron be retired prior to the time such capital would otherwise be retired under the provisions of these Bylaws, to retire capital credited to any such deceased patron immediately upon such terms and conditions as the Board of Directors may designate. Estate Capital Credits will be subject to a four percent (4%) discount rate for up to twenty five (25) years.

The patrons of the Cooperative, by dealing with the Cooperative, acknowledge that the terms and provisions of the Articles of Incorporation and Bylaws shall constitute and be a contract between the Cooperative and each patron, and both the Cooperative and the patrons are bound by such contract, as fully as though each patron had individually signed a separate instrument containing such terms and provisions. The provisions of this Article of the Bylaws shall be called to the attention of each patron of the Cooperative by posting in a conspicuous place in the Cooperative's office.

Section 8.3 PATRONAGE ON CAPITAL ACCRUED FROM AFFILIATES.

The treatment of Capital Credits from an entity or affiliate, to which the Cooperative is a member, is in the discretion of the Board of Directors and the Board must determine any manner, method, timing of allocating, and payment of such Capital Credits. The Cooperative may use or invest retired or unretired Capital Credits as determined by the Board.

Section 8.4 PATRONAGE REFUNDS IN CONNECTION WITH FURNISHING OTHER SERVICES.

In the event that the Cooperative should engage in the business of furnishing goods or services other than electric energy, all amounts received and receivable therefrom which are in excess of costs and expenses properly chargeable against the furnishing of such goods or services shall, insofar as permitted by law be: 1) used to offset any losses incurred during the current or any prior fiscal year as determined by the Board and 2) used to establish reserves and other capital not assignable to the patrons prior to the dissolution of the Cooperative.

ARTICLE 9 WAIVER OF NOTICE

Any Member or Director may waive, in writing, any notice of meetings required to be given by these Bylaws.

ARTICLE 10 DISPOSITION OF PROPERTY

The Cooperative may not sell, mortgage, lease or otherwise dispose of or encumber any of its property other than:

- 1) property which in the judgment of the Board of Directors neither is nor will be necessary or useful in operating and maintaining the Cooperative's system and facilities; provided, however, that all sales of such property shall not in any one (1) year exceed in value of ten percent (10%) of the value of all the property of the Cooperative;
- 2) services of all kinds, including electric energy; and
- 3) personal property acquired for resale.

Unless, however, such sale, mortgage, lease or other disposition or encumbrance is authorized at a meeting of the Members by the affirmative vote of at least two-thirds (2/3) of the Members voting thereon at such meeting in person, and the notice of such proposed sale, mortgage, lease or other disposition or encumbrance shall have been contained in the notice of the meeting; provided, however, that notwithstanding anything herein contained, the Board of Directors, without authorization by the Members, shall have full power and authority to authorize the execution and delivery of a mortgage or mortgages or a deed or deeds of trust upon, or the pledging or encumbering of any or all of the property, assets, rights, privileges, licenses, franchises, and permits of the Cooperative, whether acquired or to be acquired, and wherever situated, as well as the revenues and income therefrom, all upon such terms and conditions as the Board of Directors shall determine, to secure any indebtedness of the Cooperative to the United States of America or any instrumentality or agency thereof, or to a national financing institution, organized on a cooperative plan for the purpose of financing its Member's programs, projects, and undertakings in which the Cooperative holds membership or to a federally insured State or Federally

chartered lending institution.

ARTICLE 11 FISCAL YEAR

The fiscal years of the Cooperative shall begin on the first day of January of each year and end on the thirty-first day of December of that year.

ARTICLE 12 MEMBERSHIP IN OTHER ORGANIZATIONS

The Board of Directors shall have the power and authority on behalf of the Cooperative to purchase stock in or to become a Member of any corporation or cooperative organized for the purpose of furthering rural electrification or benefiting the Members. The Board of Directors shall exercise the voting rights in any corporation or cooperative in which stock or membership is held by the Cooperative.

ARTICLE 13 SEAL

The Corporate Seal of the Cooperative shall be in the form of a circle and shall have inscribed thereon the name of the Cooperative and the words "Corporate Seal, Texas".

ARTICLE 14 AMENDMENTS

These Bylaws may be altered, amended or repealed by not less than the affirmative vote of two-thirds (2/3) of all the Board of Directors at any regular or special meeting.

ARTICLE 15 USE OF ASSUMED NAME

The Cooperative may, by resolution of the Board of Directors adopted at a regular or special meeting of the Board of Directors resolve to operate under the assumed name of Comanche Electric Cooperative Association, Inc. and with the filing of Assumed Name Affidavit or Affidavits, as required by law, any acts done in such assumed name shall be the true and lawful act and deed of the Cooperative and shall be binding thereon.

ARTICLE 16 MISCELLANEOUS

Section 16.1 GOVERNING LAW.

These Bylaws must be governed by, and interpreted under, the laws of the State of Texas.

Section 16.2 PARTIAL INVALIDITY.

When reasonably possible, every Bylaw article, section, subsection, paragraph, sentence, clause, or provision (collectively “Bylaw Provision”) must be interpreted in a manner by which the Bylaw Provision is valid. The invalidation of a Bylaw Provision by an Entity possessing proper jurisdiction and authority, which invalidation does not alter the fundamental rights, duties, and relationship between the Cooperative and Members, does not invalidate the remaining Bylaw Provisions.

Section 16.3 CUMULATIVE REMEDIES.

The rights and remedies provided in these Bylaws are cumulative. The Cooperative or a Member asserting a right or remedy provided in these Bylaws does not preclude the Cooperative or Member from asserting other rights or remedies provided by these Bylaws.

Section 16.4 WAIVER.

The failure of the Cooperative or a Member to assert a right or remedy provided in these Bylaws does not waive the right or remedy provided in these Bylaws.
