

ARE YOU PREPARED FOR STORMY WEATHER?

Springtime in Texas brings more than just April showers and May flowers. It also brings some pretty fierce weather at times. Be ready for the storm season this year with a NOAA All-Hazards Weather Alert Radio. This radio has a public alert system that has the ability to protect your family with immediate notification of severe weather or civil emergencies. In addition, it has the following features:

- Get up-to-date weather information direct from the National Weather Service.
- Over 60 emergency alerts such as hazardous weather and local area warnings.
- Get the important information you need—even in the event of a power outage—with the double-A battery backup system.
- Color-coded alert lights.
- Alarm clock with snooze.

These radios are available at each of the Comanche Electric Cooperative offices for only \$32.46, including tax. Come by today and pick yours up!

SEVERE WEATHER! ARE YOU READY?

Tornadoes

More tornadoes strike Texas than any other state. Sophisticated warning systems exist, but they're no substitute for preparedness and smart action.

Tornado Safety Rules:

- At home or in the office, go to the lowest floor. Stay away from windows.
- Go to a place in the center of the building, such as a closet, bathroom or interior hallway. Protect your head with a pillow.
- If you live in a mobile home, go outside. Lie down in a ditch or low spot. Cover your head.
- If you're in a car, get out. Never try to outrun a tornado. Take shelter in the nearest building, or lie face down in a ditch.
- Know the difference between a "warning" and a "watch."
Tornado Watch: Conditions are right for a tornado. Watch the sky. **Tornado Warning:** A tornado has been spotted.

Tornadoes kill. Know what to do to avoid weather-related tragedy.

Comanche Electric Cooperative
